How Does Learning Happen?

Ontario's Pedagogy for the Early Years

Four Foundations of *How Does Learning Happen*

Precious Pearls Child Care Centre is pleased to be affiliated with Quality First, a quality early learning initiative providing all licensed childcare programs in Halton region with the opportunity to participate in a developmental model for quality improvement. Quality First believes in and supports developing the professionalism of individuals involved in the care and education of young children, improving the level of quality indicators in children's programs and collaborating with local colleges to promote the professionalism readiness of early childhood educators.

Precious Pearls is also a member of the Ontario Reggio Association <http://ontarioreggioassociation.ca> which provides workshops and includes annual or semi-annual conferences for Reggio educators, professional development Saturday sessions in which small groups share documentation and discussion, website access and information, networking for members, and announcement for various events through their website.

WHAT IS REGGIO EMILIA

The influences of the highly regarded Reggio Emilia schools of Italy are at the core of Precious Pearls Child Care Centre. In 1991, Newsweek named Reggio Emilia's school system one of the ten best in the world. The Reggio Emilia Approach offers a way for teachers to harness children's natural curiosity and creativity by encouraging them to work on projects that interest them.

The Reggio Approach simply means allowing children to guide their teachers in choosing the classroom environment that will challenge and maximize their curiosity. At the heart of this system is the powerful image of the child. Rather than seeing children as empty vessels that require filling with facts, Reggio Educators see children as full of potentials, competent and capable of building their own theories.

The Reggio Emilia Approach to preschool education was initiated by the schools of the City of Reggio Emilia in post-World War II in Italy. The Reggio Emilia Approach to Early Childhood Education is named after the town of Reggio Emilia in the Emilia Romagna province of northern Italy. In Reggio Emilia, 54 publicly funded schools provide education for children from birth to six years. These schools have been described as among the best in the world.

PRINCIPLES OF REGGIO EMILIA

- The Hundred Languages of Children- Children express themselves through many languages (visual, verbal, written, movement and music, etc.)
- The Image of the Child- All children are competent, curious and creative
- The Role of the Environment- The environment serves as an invitation to enter and participate.
- The Role of the Teacher- To facilitate children's ability to represent what they know and imagine.

- The Importance of Time- Children have the time and guidance to use the same materials repeatedly until they are pleased with the results and decide to move to a different interest. Time is not set by clock but by children's own sense of time.
- The Value of Relationships and Interaction of Children in Small Groups- Provides opportunities for negotiation and dynamic communication. As well as the emergence of cognitive conflicts that can initiate a process of new learning and development.
- Observation and Documentation- The teachers learn how to work with children by continuously observing and documenting interactions through written notes, photos, visuals, etc.

We believe that play is a very important tool in the development of children in their early years. We run Inquiry and Play-based programs that allow children the opportunity to explore their world through various material, group activities, creative art, science, literacy, math, sensory play, dramatic, and many play activities.

Reggio Emilia Approach brings children together for project-based learning where they learn to include everyone to build a community. It is an emergent curriculum that has documentation as its strongest component. Children and teachers are co-constructors of knowledge. It promotes a positive image of the child.

"Children must be taught how to think, not what to think" (Margaret Mead).

Our program offers Creativity, and Imagination through an enriched environment from which children can literally absorb information, and allow for inquiry through play.

Our program includes many natural materials to be used through developmentally appropriate activities per each child in the Centre. These natural materials help children develop their Physical, Cognitive, Social, Emotional, and Communication through our variety of play centres available such as Sensory Play, Dramatic Play, Art/Craft, Woodworking, Blocks, Math, Literacy, Science/Nature, Physical activities, and much more.

Precious Pearls Child Care Centre is inspected by a licensed Health Inspector and follows the rules and regulations set out by the Region of Halton Health Department in regards to the following:

- Immunization and Health Awareness
- Illness
- Appropriate temperatures and weather conditions for outdoor play
- Sanitary practices

We provide quality care for children between the age of 12 months up to 6 years old on a full time and part time basis. Our capacity is 77 children.

PROGRAM STATEMENT

“The mind is not a vessel to be filled, but a fire to be kindled” (Plutarch).

We believe that the early years of a child are the most vital years in their development. Children need to explore and to be inspired to enrich their mind for a healthy life development; furthermore, they will become life learners, responsible and well-adjusted individuals.

Each child is unique in their development, experiences and culture. Therefore, to be able to enhance and enrich them we follow the Ministry of Education’s Pedagogy document “How Does Learning Happen”, including children’s sense of belonging, wellbeing, engagement and expression.

- ✓ Every child has a sense of *Belonging* when they are connected to others and contributes to their world
- ✓ Every child is developing a sense of their self, health, and *Wellbeing*
- ✓ Every child is an active and *Engaged* learner who explores the world with full body, mind and senses
- ✓ Every child is a capable communicator who *Expresses* themselves in many diverse ways

At Precious Pearls Child Care Centre, we are committed to accomplish the foundations of learning through:

HEALTH, SAFETY, NUTRITION and WELL-BEING

- Our goal is to promote a safe, whole-hearted and healthy environment that makes each child feel at home. We allow children rest time, provide them with individual care and attention, and offer nutritious food. We also allow them to be creative and use their imagination through positive play, interaction with peers, and closeness to nature.

INTERACTIONS

- Support positive and responsive interactions among children, staff and parents who are the first teachers a child will have. Therefore, we trust that every parent, child and staff at our Centre would discover satisfaction on

the path of learning as they challenge, lead and nurture one another in a creative natural environment.

- Encourage children to interact and communicate in a positive way and support their ability to self-regulate. At Precious Pearls, we support different ways of learning and communicating through respect, and ensure the safety and well being of all children and staff in the Centre. The staff will foster self-regulation, self-help skills and promote collaborative problem solving skills.

LEARNING ENVIRONMENT

- Plan and create positive learning environment full of educational materials to support child's learning and development through exploration, play and inquiry.
- Our staff will help provide child-initiated and adult-supported experiences. Each classroom will be designed to encourage child-led activities that can be transformed into learning experiences.
- Our program at Precious Pearls will incorporate indoor and outdoor play, active play, rest and quiet time into the day and give consideration to the individual needs of the children receiving child care.

COMMUNICATION

- Foster the engagement of and ongoing communication with parents about the program and their children. We encourage freedom to explore, choose, create and grow through communication between children and staff. We believe that family involvement and input is key to their children's development.

COMMUNITY

- Involve local community partners and allow those partners to support the children, their families and staff.

CONTINUOUS PROFESSIONAL LEARNING & TRAINING

- Precious Pearls Director and Supervisor's goal is to provide a supportive environment where staff will receive ongoing training and guidance to ensure their classrooms are a place with knowledgeable and skilled staff.

DOCUMENTATION & PROGRAM REVIEW

- Our goal is to document and review the impact of the strategies, set out above, on the children and their families. We shall document children's learning experiences, reports, log sheets, inspections, and all necessary communications between staff, families and children.

Precious Pearls Child Care Centre keeps all required documents, log sheets and files for 3 years. All financial records must be kept for 7 years.

An annual policy review shall be conducted each fall by the Director and Supervisor to ensure policies and procedures are current and up to date.

This program statement shall be reviewed annually and signed off by each staff member, student and volunteer prior to the commencement of their employment at Precious Pearls Child Care Centre and each time the Program Statement is amended. The Program Statement will be appraised annually to determine alignment with Precious Pearls Child Care Centre values, beliefs, and reflects the current trend of ECEs, Ministry guidelines and the Child Care and Early Years Act. The Supervisor shall share new information in regards to the Program Statement with the staff.

OUR PROGRAMS

Each classroom will have at least one Registered Early Childhood Educator (RECE) and an Educator Assistant.

Each classroom will have their own daily routines which will be posted on the classroom bulletin board and that will include Program Activity Times, Meal Times and Rest Times.

JUNIOR PEARLS (INFANTS & TODDLERS)

Infants & Toddlers' utmost need is autonomy. They learn how to explore, discover their will, make their first decision and start to build up the image of self-identity. The goal of this stage is to develop an intellectual curiosity that will follow them throughout their lives. Children in the Centre have many possibilities to browse through different corners, feel the nature of different activities and choose their

favourite ones. This way, children have a chance to create a positive image of a person who is confident and appreciated by others.

For further details, please check our website at preciouspearls.ca.

SENIOR PEARLS (PRESCHOOLERS)

During the preschool years, children start to develop initiative and sense of accomplishment: they need to do things on their own and plan. Gradually, through repeated actions of play, with variations in different contexts or on different kinds of objects, children learn to differentiate, compare and integrate elements, think in cause-and-effect terms as well as plan their play/actions. Preschoolers are able to make not only simple verbal categorizations but also, while manipulating concrete materials, they can indicate two or three common features at the same time.

For further details, please check our website at preciouspearls.ca.

WAITING LIST POLICY

Licensed child care centres are no longer authorized to charge prospective parents a fee or deposit for the placement of a child on a waiting list for admission. Precious Pearls Child Care Centre will comply fully with this new requirement. However, the Centre will continue to charge a non-refundable registration fee of \$100 once a spot is available and secured.

Procedure

- All our classes have enrollment limits based on our licensed capacity. When our classes are filled, we keep a waiting list through the year.
- A space would be made available based on a child terminating from the program or moving up to a different classroom.
- At that point parents will be contacted and informed of available space.
- If parents wish to decline a spot, they will be removed from our waiting list.
- The waiting list is done in order of inquiries received with siblings of currently enrolled children prioritized and then full time inquiries.
- The list is reviewed every six months to determine where children will be per their age.
- Open spots for the following school year are filled first with our currently enrolled students. Incoming siblings are prioritized next and then full time inquiries. Any additional spots are filled from the waiting list in order of inquiries.
- For confidentiality reasons, a number generated by the system will be given to each child at the time of being placed on the waiting list. A list with numbers will be available to parents on our website to check their spot status. Each number will represent a child's name and parents will use the number they were provided with to check the order status.

TERMINATION OF ENROLLMENT

A minimum of 4 weeks written notice must be submitted to the office to withdraw a child from the Centre. Children with temporary termination will not be guaranteed a spot in the following year.

This agreement shall be terminated if any one or more of the following occur:

1. Failure of a parent or guardian to honour all obligations listed in the parents' handbook or the enrollment agreement or in any rules, regulations provided by the Child Care Centre.
2. The parent or guardian of the child allows their account to become in arrears.
3. The Child Care Centre in its sole and unfettered discretion, determines that it is not in the best interest of the Child Care Centre or other children enrolled at the Centre to have the child in attendance.

ARRIVAL AND DEPARTURE POLICY

At Precious Pearls Child Care Centre we ask each parent or guardian to inform staff when they are dropping off or picking up a child. Children should be dropped at their appropriate classroom and never left unattended at any time. Staff need to sign in and out the child when an adult is present. If a parent is not able to pick up a child certain days or times, staff should be informed of the person picking up the child and are required to ask for a government issued Identification to make sure that the person is on the child's record. Our staff will NOT release a child if they feel that it is NOT in the child's best interest to do so.

LATE PICK UP POLICY

A late fee charge of \$1 per minute will apply if a child is picked up after closing time (6:00 pm) and is payable at time of pickup or the next day before joining class. Late pickups will be recorded and reviewed and if it turns into repeated occurrences, it may cause withdrawal of your child from the program.

If a parent is aware that a late pickup may occur, we encourage you to either try and find alternate arrangement for pickup prior to closing time or to please notify the office before 5:00 pm.

Two-week menu will be posted at the main bulletin board for all parents to view.

We strive to be a peanut/nut free Centre. In order to reduce the risk of exposure to anaphylactic causative agents, our menu will not include high allergy foods. We also ask that you please ensure that these products stay off our Centre premises and ensure that all labels are checked carefully for these food contents.

Precious Pearls Child Care Centre does not allow any outside food into the Centre unless the supervisor has pre-approved it. Otherwise, you will be asked to remove it from the Centre immediately.

When enrolling your child into our Centre, a form must be filled out in the registration package about any specific dietary restrictions, in order for us to be made aware of any health or food allergies and/or restrictions. A detailed description of signs and symptoms may be requested for certain allergies, and an

Anaphylaxis Emergency Plan must to be filled out for ALL anaphylactic allergies. Please refer to the Anaphylaxis policy. For children with specific diet restrictions, foods MAY be substituted either by the Centre or the parents. Upon registration, specific instructions as to foods allowed to be ingested is documented and meal plans are reviewed. We make every effort to work together with families to accommodate dietary or religious food requirements.

Every child is required to have his/her own water bottle/sippy cup. The bottle will be filled daily by the staff and washed and sanitized as per Health Board requirements at the end of the day unless parents choose to take it home daily. Please make sure the bottle is labeled with the child's first and last name and is clearly visible on all items provided from home.

CLOTHING

Please ensure that your child has at least an extra set of clothes that are clearly labeled with the child's first and last name. We suggest that you send your child with comfortable play clothes as they will be busy all day at the Centre and might get a little messy.

Our Centre also requires indoor pair of shoes to be worn while indoors which also should be labeled with your child's name.

VACATIONS AND SICK DAYS

At Precious Pearls, we understand the need for family vacations; however, to ensure your child's spot during the calendar year, full tuition fees are required. The office requires that you notify the Centre in regards to the time of when and how long your child will be off for vacation.

Tuition fees are charged in full, regardless of days absent due to illness, holidays or emergency closures, to ensure your child's spot. There is no substitution days for any holidays or sick days.

ANAPHYLACTIC POLICY

It is the policy of Precious Pearls Child Care Centre to create an allergen-aware environment in order to protect the health and safety of our children and staff. Creating an environment that reduces the risk of exposure to severely allergic or anaphylactic children requires the co-operation and understanding of all our members, including staff, students, volunteers, children and parents.

Strategy to Reduce the Risk of Exposure:

No Peanut, Tree Nut Products, or any material used for craft and sensory programming that might have a risk of exposure to anaphylactic causative agents ARE ALLOWED at Precious Pearls at ANYTIME.

All food prepared on premises have been verified that they are peanut or nuts free. Staff purchasing foods on behalf of the Centre must read food ingredient labels every time they purchase a product and ensure they only bring peanut or nut free food inside the Centre.

The sample menus have been developed to ensure that all ingredients are peanut and nut free.

All staff, students, volunteers and parents are not permitted to bring in food or snacks at any time, except in very rare cases and in coordination with the Centre. Ex: any food brought in from outside by staff member for lunch should be consumed in the Staff Lounge only.

All surfaces must be cleaned with a cleaning solution prior to and after preparing and serving foods. All cleaning supplies, medicines and any other products that may be of danger and/or commonly produce allergic reactions must be stored safely away.

The strategy and information above will be revised as necessary depending on the life-threatening allergies of the children enrolled.

Communication Plan:

Parents of anaphylactic children are required to indicate this on the Enrollment Form which they provide prior to their child starting at the Centre or when their child is diagnosed; and are also required to develop and sign an Individual Emergency Plan for their child. All parents are informed of the known allergies in the Centre upon enrollment of their child and are updated regularly.

A list of all anaphylactic children is posted in each classroom, food preparation area, and the office.

Staff, students and volunteers are informed of the known allergies in the Centre, the policies, procedures and individual emergency plans which are in place for each child.

The policies regarding anaphylactic procedures will be reviewed prior to employment and annually thereafter. Each staff, student, volunteer, and person giving guidance will sign and date the policies sign-off form. Use of the Epipen will also be reviewed annually

Individual Plans and Emergency Procedures:

Prior to enrollment and/or upon diagnosis, parents of anaphylactic children will provide the Centre with an Epipen labeled with the child's name and expiry date. This will remain in the First Aid Kit and travel with the child at all times and upon expiration will be replaced by the parents.

Parents will supply a second Epipen for their child, which will be kept in the office at all times, inaccessible to children.

Parents will meet with the Supervisor to provide input to update the child's Individual Emergency Plan and emergency procedures. This plan will include but is not limited to:

- Description of the child's allergy
- Monitoring and avoidance strategies
- Signs and symptoms of an anaphylactic allergy
- Child care staff roles and responsibilities
- Parent/guardian consent for administering allergy medication
- Emergency contact information

The Individual Emergency Plan states the procedures that must be followed in the event of a child having an anaphylactic reaction, this plan is signed and dated by the child's physician.

Parents are requested to advise the Director if their child develops an allergy, requires medication or if there is any change to the child's Individual Emergency Plan or treatment. Individual Emergency Plans will be reviewed yearly by the parent and revised if necessary.

Copies of Individual Emergency Plans are posted in the child's classroom, on main bulletin board, in Staff lounge and Food Preparation area. Copies are also inserted in each child's file in the office.

All staff, students and persons giving care or guidance to children will review each individual plan prior to employment.

Training:

Prior to employment and on an annual basis all staff will be trained by parent or qualified and certified health professional on procedures to be followed if a child has an anaphylactic reaction, including how to recognize the signs and symptoms of anaphylaxis and administer medication.

At the start of their involvement, students and volunteers must be provided training by the Supervisor; however, generally volunteers and students are not permitted to administer medication unless under extreme circumstances (i.e. staff is unconscious).

The staff will be required to provide a certificate that they have received training, date and sign off that they have received training.

Trained staff shall administer Epipen whenever needed as per conformance to Individual Emergency Plan and procedures.

A person having an anaphylactic reaction might have any of these signs and symptoms:

- Skin: hives, swelling, itching, warmth, redness, rash

CRIMINAL REFERENCE CHECK POLICY

The Ministry guidelines state that all licensed agencies providing direct services to children and/or vulnerable persons are required to have Vulnerable Sector Check (VSC) policies and procedures included in their hiring practices.

Vulnerable Sector Checking is a precautionary measure designed to ascertain whether potential and current employees have a record of criminal convictions, which would make them unsuitable for positions of trust.

It is in keeping with these guidelines that Precious Pearls' Programs incorporate Vulnerable Sector Checks into its recruitment practices and annual reviews. It is our commitment to ensure the safety of all children at our Centre.

All prospective employees of Precious Pearls having direct, unsupervised contact with children must provide a Vulnerable Sector Check which was obtained within the last 6 months prior to commencing work.

Examples of employees required to obtain VSC:

- Food preparation staff, cooks, drivers
- Supply educators
- Staff who participate in the licensed child care program

Examples of individuals who are not considered employees:

- Individuals employed by an agency that is contracted by the licensee to provide a service in the child care program (e.g. resource teacher) these individuals are considered third party.

The above individuals do not require to present a VSC but must provide an attestation from their employer or complete an Offense Declaration form.

The written attestation must include the following information:

- Name(s) of the employee(s), volunteer(s) or student(s) the attestation applies to
- Confirmation that the Vulnerable Sector Check was conducted less than 5 years ago from the date of the attestation (e.g. month and year of the VSC date)

- Confirmation that the Vulnerable Sector Check was conducted by a police force
- Confirmation that the Vulnerable Sector Check did not list convictions for any offences set out under Section 9 of the CCEYA
- Signature of the licensee or designate

Examples of people who are considered volunteers and must have VSC:

- Parents assisting on an occasional or recurring basis with child care programming, such as excursions, field trips, etc.

Examples of individuals who are not considered volunteers:

- Parents who engage with their child and other children at arrival or pick up time in the program
- Individuals who are paid by an organization that the licensee has contracted to provide a service and are not left alone with the children in care (e.g. dance teachers)
- Individuals from the community engaging in the child care for a specific event where they are not left alone with the children in care (e.g. presentations by community organization. Recreational programs, local librarian, fire fighter)
- Parents attending a child care or school event and are not assisting with the care for or supervision of children

All employees shall have:

- A Vulnerable Sector Check conducted by a police force in their file
- The document should indicate that the VSC was conducted no more than 6 months before the date it was obtained by the licensee prior to the start of their employment. If the employee is still waiting for the VSC to arrive, the director will accept employment with conditions and the person will be supervised and not left alone with children until the VSC arrives.

All Volunteers and Students who interact with children shall have:

- Vulnerable Sector Check conducted by a police force in their file
- The document should indicate that the VSC was conducted no more than 6 months before the date obtained by the licensee
- An Offence Declaration on file, addressing the period since the vulnerable sector check was performed

The original copy will be kept in the employee's file for record if possible, otherwise a copy of the original document will be used after being copied by the

supervisor and signed by the Supervisor and Director. Criminal information obtained will be kept confidential.

A new Vulnerable Sector Check must be provided every 5 years on or before the fifth anniversary regardless of the individual's offence declaration schedule. Offence declarations must be provided annually in the years that a Vulnerable Sector Check is not provided. The Offence declaration must be obtained no later than 15 days after the anniversary of the previous offence declaration or vulnerable sector check.

In the case were the individual is on a leave when it is time to renew the VSC or the Offence Declaration form, such as maternity leave or other medical reasons, the Supervisor and the employee must work out a way to have it done by the time it is required as mentioned above.

At any time, an employee, student or volunteer is convicted of an offence under the Criminal Code (Canada), a new Offence Declaration form must be filled as soon as possible.

For tracking all information required, the Supervisor uses a Verification and Tracking Workbook: Vulnerable Sector Checks (VSC), Offence Declarations (OD) and Regulatory Body Membership and Past Conduct form provided by the Ministry [VSC_CRC_OD Tracking Form].

Volunteers or individuals under the age of 18 are not required to obtain a VSC. In the case of the individual turning 18 while still in a position, the individual is required to provide a statement in writing that discloses every previous finding of guilt of the person under the Youth Criminal Justice Act (Canada).

If the individual turns 19 while still in position where he/she interacts with children, a VSC within a month from turning 19 should be obtained and kept on file.

PROCEDURE:

1. All candidates for job positions shall be told that a Vulnerable Sector Check is required prior to commencement employment at Precious Pearls.
2. If a candidate has been successful a Conditional Proposal of Employment will be completed. The offer of employment is contingent on the return of a "negative" response on Vulnerable Sector Check.
3. The candidate shall forward the signed form and fee to the local Police department. The Police Department will forward the results directly to the candidate.
4. A positive response indicates that a criminal record does exist. When this occurs, it will be at the discretion of the Director on how to proceed. It will

not necessarily preclude employment; however, serious consideration as to the suitability of the candidate to work at Precious Pearls will need to be determined.

5. The following are examples of convictions that will not allow an individual to obtain a position working with children:
 - An offence under the Child Care and Early Years Act, 2014
 - An offence under section 151 of the Criminal Code (Canada), sexual interference.
 - An offence under section 163.1 of the Criminal Code (Canada), child pornography.
 - An offence under section 215 of the Criminal Code (Canada), duty of persons to provide necessaries.
 - An offence under section 229 of the Criminal Code (Canada), murder.
 - An offence under section 233 of the Criminal Code (Canada), infanticide.
 - Any other federal or provincial offence prescribed by the regulations.
 - When individual has been found guilty of professional misconduct under the Early Childhood Educators Act, 2007, the Ontario College of Teachers Act, 1996, the Social Work and Social Service Work Act, 1998 or another prescribed Act, and based on that finding,
 - The individual's membership in the regulatory body established under that Act was revoked and the individual has not been readmitted since that time,
 - A certificate or documentation issued to the individual under that Act that authorized the individual to practice was revoked and has not been reissued since that time, or
 - The individual's authority to practice was restricted in any other way prescribed by the regulations.
6. If the candidate is deemed inappropriate the Director will notify the individual of the decision. A notation is made to the candidate's resume file. The form will not be retained by Precious Pearls. The notation may simply read "Positive Response on VSC."
7. Despite having a criminal record, the candidate may still be considered, depending upon extenuation factors such as the type of conviction, length of time since the conviction, frequency, etc. The Director will consult with the candidate as needed to make the decision. If the candidate is hired, a notation will be placed in their personal file indicating a positive response and the stipulations concerning the decision to hire.
8. A "negative" response indicates there is no criminal record and the Director can proceed with the hiring the candidate. All original VSCs will be kept on file. All originals and copies will be stored in locked cabinets.

9. The Director may make a conditional job offer to the candidate pending the result of the VSC. The Director will provide a Conditional Proposal of Employment Form to be signed by the candidate to ensure that the candidate understands that they will not be left unsupervised with the children until the results of the check is shared with the Director. (This may be necessary if a considerable amount of time is required before receiving the results of the check and the immediate need for staff at Precious Pearls).
10. All employees must sign an Offence Declaration form on a yearly basis until the 5th anniversary of the new CRC/VSC.

BEHAVIOURAL GUIDANCE

Reasonable limits should be clearly set and enforced consistently through positive example, affection and empathy. You can shape and manage a child's behavior through positive teaching methods such as, example, explanation, and encouragement. Children learn best when given reasonable limits and the freedom to make choices. By listening to children, respecting their rights, giving them choices and setting appropriate limits, the educators foster positive self-esteem and a sense of well-being and belonging in the children. We believe that children learn respect by being given respect and as such, our behaviour guidance policies reflect these beliefs. Strategies that the educators utilize include setting appropriate limits and expectations, promoting positive behaviour, natural and logical consequences, redirection and physical environment considerations.

At our Centre, we believe that learning, achievements, opinions and happiness of all our children, parents and staff matter.
